Please accept my request for an extension to file Form 471 for Funding year 2014. We are a publically funded school providing special education among other services to 1300 students on four campuses. The employee who previously handled our USAC, E-Rate filings became very ill which resulted in an unpredictable work schedule and incomplete job duties. The illness ultimately resulted in the employee's death. Upon my hiring I was given the task to update and maintain the E-Rate account; however with no prior training I am independently learning the program as well as maintaining my current job responsibilities. I waited the required 28 days after the 470 submission that then put me outside the scheduled close window date for 471 submission. I have made repeated calls for assistance during this process to get up to date. I did file a waiver request letter to USAC on April 22, 2014 and they returned a letter stating said waiver request goes to the FCC.

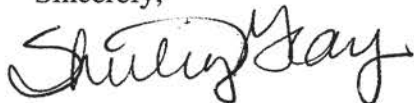

I appreciate your consideration to grant a waiver and am willing to provide any information needed. Please accept our apologies and grant us an extension for the following filings:
